

FOR IMMEDIATE RELEASE

The Transformers Wiki reaches 10,000 articles

TFwiki.net, the most comprehensive Transformers resource on the Internet, has reached ten thousand articles.

December 14, 2009 – At 10,000 articles, the Transformers Wiki (TFwiki.net) has reached an amazing milestone. Thanks to the hard work of its contributors, TFwiki.net has become the most complete and comprehensive Transformers resource on the Internet, spanning all corners of Hasbro's multiverse surrounding Optimus Prime, Megatron, and their warring robot brethren.

The Transformers Wiki began in 2006 as a very small project hosted by Wikia, and it made worldwide news on September 15, 2008, when the Transformers Wiki left Wikia for its own hosting. Since then, the Transformers Wiki has thrived beyond all expectations, exploding from 6000 legitimate content pages to its present number. Users are charmed by its accessibility, humor, and breadth of information - all without being obscured by ugly placement of advertising. From "Airazor" to "Zarak," TFwiki.net as a Transformers resource simply has no equal.

Ming-Li, our 10,000th article

The ten thousandth article was "Ming-Li," the female racer from the *Transformers Animated* episode, "Velocity." The article was written by TFwiki.net user Jim Sorenson, who appropriately enough gave Ming-Li her name in the official *Animated* handbook, the *AllSpark Almanac*. She was named after his real-life wife.

About TFwiki.net

TFwiki.net is a comprehensive resource about Hasbro's Transformers, attracting an average of 45 thousand users per day. It is not an official resource or endorsed by Hasbro, but is maintained by dedicated fans of Transformers. For more information, email founder David Willis at wiiiii@gmail.com
